EXPERIENCE

Team Member - Software Division

GUB Mars Rover Team

2023 – Present GUB, Dhaka

- Developed real-time dashboards for autonomous missions using React and Python.
- Integrated sensors (GPS, Camera, IMU) with ESP32 and Raspberry Pi.
- Contributed to the team website and collaborated cross-functionally with hardware divisions.

Participant - Techathon

AUBAT University

2024 Online / AUBAT Campus

- Presented a system integrating smart infrastructure ideas.
- Worked in a fast-paced, multi-disciplinary team environment.

Participant - RoboTech Competition

Daffodil Int'l University

2024 Dhanmondi, Dhaka

- Developed sensor algorithms for robotic pathfinding and task automation.

Competitive Programmer

GUB CSE Department

2023 – Present Dhaka

- Solved time-optimized problems in data structures and algorithms.

PROJECTS

Project Lotus (Rover Dashboard)

GUB Mars Rover Team

2023 – Present

- Designed interactive dashboards for autonomous and science missions.
- Linked with ESP32 + sensors and integrated map + data visuals.

Citizen Info BD (Govt. Info Portal)

Freelance Project

2 Months

- Created a web portal for NID, passport, birth reg. tax lookup.

MY LIFE PHILOSOPHY

"Build with purpose, learn without limits, and lift others as you rise."

MOST PROUD OF

Python and Django Certification
Completed backend development training under Edge and ICT Division.

Anatolian Mars Rover Challenge
Selected as team delegate for international rover competition.

Passion for Building and Collaboration
Actively contribute to dashboard development, sensor integration, and team support in our Mars Rover project — driven by purpose, not just deadlines.

STRENGTHS

Dedicated & Hard-working
Detail-Oriented
Leadership & Team Spirit
Community Engagement

LANGUAGES

Python (Django) C/C++ Java JavaScript
React PHP XML Embedded C
Data Analysis

SKILLS

Front-End Development (HTML, CSS, JS)
Backend: Django, REST APIs Team Collaboration
Event Organization & Public Speaking
Tech Competition Enthusiast

EDUCATION

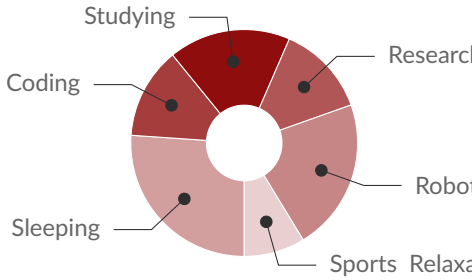
B.Sc. in Computer Science & Engineering

Green University of Bangladesh

Ongoing

- Focused on public accessibility and user-friendly design.

PUBLICATIONS

- Currently drafting a research paper on autonomous robotics and multi-sensor fusion.
- Targeting submission to an international undergraduate journal.


A DAY OF MY LIFE
